FINAL AGREEMENT ON SOLDIER BONUS REACHED IN HOUSE O. K.'s Amendments of Com-

**CARRIES FOUR OPTIONS** AND PROVISION FOR CASH

Bank Loan Feature Retained. Compensation for Relatives of Late Dead Fails.

Carries Four Options.

As finally drawn, the measure carries four options, with an added provision of immediate cash payment to those former service men entitled to not more than \$50 of adjusted service pay. It was stated that no of importance had been made in the new bank loan provision of the adjusted service certificate title or in the other three options which are vocational training, home and farm aid and land settlement.

Fordney Predicts Passage.

The effort to have included in the measure a provision for the payment of compensation to immediate relatives of men who have died since their discharge from the service was unsuccessful.

Chairman Fordney predicted that

successful.

Chairman Fordney predicted that the measure would be passed by the House. He said he was undecided whether it would be brought up under a suspension of the rules or whether he would seek a special rule for its consideration.

Text of Provision. Here is the text of the bank loan n of the compromise soldiers'

A strike at this time could only serve, it is apprehended, to check the onward movement and to colleggers who once gave quality

All the press reports of the hour of conditions in the soft-coal-producing states are gloomy and foreboding. The governmental agents at command of the Department of Labor are known to be active, but working in a mysterious way their wonders to perform the Secretary of Labor not being prepared to disclose the activities.

The most menacing feature of the situation is appraised to be the seeming unwillingnes of some of the operators and miners' organizations to meet in joint conference to reach an agreement which would be binding in the whole competitive field. The union and non-union miners are working at cross-purposes, seemingly, and the non-union men getting the best of the bargain in full production at lower wages.

A profound disturbance in employment and production, such as the threatened coal strike would create, might set the whole country by the ears on the eve of an important pointing and production, such as the threatened coal strike would create, might set the whole country by the ears on the eve of an important pointing and the politician fear. Clamping Down of Prohibition

Bootleggers' Poisons Threaten Sight, Life and Reason-Hospitals Treat Scores of Victims.

Prohibition forces and the police have clamped down on violators of the prohibition act with such a grip that it has become very difficult for would-be purchasers of liquor in Washington to get genuine products-which is as it should be.

But an even greater menace to the imbibing folk of Washington has developed. The closing up and tightening of legal locks on distilleries and warehouses-whence formerly came much of the bootleg product-and the perfection of a checking-up system which makes the forged permit method of withdrawing warehouse liquor almost impossible has caused the influx of hundreds of gallons of poisonous concoctions into the city. It has also boomed the manufacturing of preparations which are deadly poison if taken in sufficient quantity and which bear the outward appearance of whisky but have the quality of the proverbial ashen-cored apples of the Dead sea.

Many Washington bootleggers are making poison liquor with full knowlthey put certain poison elements together and sell them as liquor that the drinker is liable to serious in-
